As in the other sessions, the greatest privacy is maintained, and only conjectures can be formed of its outcome.

The duration of the session, too, is an unknown quantity, several of the members having youchsafed to say that even they did not know when it would end. I cannot tell when the Council will

take a vote on the report," said a member to an Evening World correspondent. nor can I tell what the real vote will be. This much I will say, however, that the report of the Committee will be somewhat of a bombshell."

Others who claim to have knowledge of inside matters, say that no general strike on the Vanderbilt System will be ordered, but that it will be voted to give

assistance to the strikers already out. This rumor has gained such credence This rumor has gained such credence that tuainess men are elated, while the railroad men are correspondingly disappointed at this mode of settlement.

Mr. Hanahan, who is spokesman for the Council, to-day said that the public need not expect any news regarding their conference or its outcome until 5 or 6 o'clock this evening.

11.30 A. M.—It is rumored that complications have arisen out of the report of the sub-committee and that all is not as larmontous in the Council as Grand Master Sargent would have the public believe.

### IN SESSION AT ALBANY.

246's Executive Board. PERCYAL TO THE EVENING WORLD.

ALBANY, N.Y., Aug. 25. General Master Workman T. V. Powderly, A. W. Wright, of Toronto: John Devlin, of Detroit, and John W. Hayes, of Philadelphia, arrived here this morning, and at 11 o'clock went into consultation with the Executive Board of D. A. 246 to discuss the existing strike situation.

The following statement about the Central's freight business at West Albany is made by a train despatcher who claims to be familiar with affairs there:

"The average number of freight trains per day during this season of the year is fully fifty, so that 2,500 cars go through every twenty-four hours.

"During the two weeks that the strike has been in operation, not over 1,500

It is certain, according to the statements of two members of the Board before leaving the city, that the fight will be waged against the Central Road whether the Federation joins hands with them or not. will depend solely on the decision of the joint meeting.

Hopes have not been abandoned that the State Board of Arbitration will step in and order an investigation despite the positive attiride taken by Vice-President Webb against outside interference in the shape of arbitration. It was stated this morning on the highest authority that the General Executive Board would hold a conference at Albany with the State Board of Arbitration Commissioners.

Vice-President Webb smiled expansively when an Evening World reporter asked him if he still believed that the Supreme Council would keep its hands off the present Central troubles.

Local Knights Inactive Pending News from the West.

The local Knights of Labor and the management of the New York Central Railroad, particularly Vice-President Webb, have their eyes turned to day to wards the West and Terro Haute, where the Supreme Council of the Pederation of Railway Employees is in session.

The big Knights who have been making this city their headquarters for several days are in Albany to-day in session with sepresentatives from the thirty-nine local at 9 Bt. Mark's Place to make arrange-

ments for the stands and speakers.

The Federation of Labor has decided that, in view of its non-affiliation with the Knights of Labor, it cannot, as a body, participate in to-morrow night's mass-unceting, but its members will probably all be present as individuals.

PREMATURE FOR FOR WERE

At 1 o clock Vice-President Webb said he had received word through a Freduce Exchange despatch that the Federation at Terre Haute had retused to order a strike. An Evenno Wonld reporter found that Traffic Manager Richardson had given Mr. Webb the information, and he said he got it from the Company's agent at the Freduce Exchange Sunt. Howe told an Evenno Webb who was a been received there.

The General Executive Board of the Rights of Labor has for some time been unanimous in denouncing Arthur as having the interests of railroad companies more at heart than those of organized labor. Various statements have been made to the effect that Chief Arthur is a stockholder in the New York Central among other roads, and this was given as a reason for his determination to hold alcof from the present complications.

Vice-President Webb said this mogning that he did not know whether Arthur held any stock of the New York Central. In fact, he did not believe that he did. This is not the opinion, however, of a number of Knights, who claim that Chief Arthur is rich and is a stockholder in several railroads here and in the West.

Said a prominent Knight to an Evenical World reporter to-day:

"Chief Arthur is personally interested in the New York Central, road, and you may rest assured that he will never call out the engineers. He is now believed to be a rich map, and, as I have learned, the holds stock in the New York Central, the Michigan Central and the Chicago, Burlington and Quincy roads.
